

Legend:

- Site boundary
- Proposed substation location 1
- Proposed substation location 2
- Distance radii from fields hosting solar PV modules (1, 3km)
- Existing woodland (modelled at 10m)
- Preliminary viewpoints
- Existing buildings (modelled at 7.5m)
- Zone of theoretical visibility (15m high substations)**
- Substation location 2 may be visible
- Substation location 1 may be visible
- Both areas may be visible
